EDUCATION

University of Massachusetts Dartmouth (UMassD)

North Dartmouth, MA

Master of Science in Data Science / GPA: 3.87 / 4.0

Aug 2024 – May 2026

Coursework: Data Visualization, Advanced Mathematical Statistics, High Performance Scientific Computation, Database Design, Advanced Data Mining, Statistical Analysis, Artificial Intelligence, Advanced Machine Learning, Network Security.

Anna University

Chennai, India

Bachelor of Engineering in Electronics and Communication Engineering / GPA: 8.65 / 10

July 2020 - Apr 2024

Awarded Best Undergraduate Final Project, 2024 for an ML-based project on Forest Animal Detection.

WORK EXPERIENCE

University of Massachusetts Dartmouth

North Dartmouth, MA

Information System Analyst Assistant

Sep 2025 – Present

- Supported campus-wide POS and access control systems (INFOR POS, UMass Pass, Lenel OnGuard) diagnosing hardware/software issues and ensuring reliable capture of transactional and access data across Dining, Residential Life, Campus Safety, and Facilities.
- Collaborated with IT and development teams to test and deploy system upgrades, assisting with data extraction, validation, and integrity checks to support reporting, audits, and cross system integration.

Value IBMS Pvt Ltd.,

Chennai, India

Data Analyst Intern

Oct 2023 – Dec 2023

- Conducted descriptive, predictive, prescription analytics on large, high risk cybersecurity datasets, and optimized key performance indicator reporting using Tableau to boost product sales by 30%.
- Designed an automated SQL – based ETL pipeline, streaming data pre-processing by 45% , while improving cross-team collaboration to exceed KPI goals by 67%.

Value IBMS Pvt Ltd.,

Chennai, India

Data Analyst Intern

July 2023 – Aug 2023

- Analyzed operational and performance data, system requirements, and KPIs for the Chiller Plant Manager (CPM) project at Pune Metro Station, resulting in 37% improvement in building management system efficiency.
- Implemented automated, data driven control solutions using advanced monitoring and predictive maintenance techniques to reduce manual interventions and enhance overall system performance.

ACADEMIC PROJECTS

AI-Powered Medical Image Analysis | *Next.js, TypeScript, Tailwind CSS* University of Massachusetts Dartmouth | Oct 2025

- Built an AI based MRI analysis system for tumor detection and risk assessment using Google Gemini.
- Implemented a secure, explainable AI pipeline with PDF report generation and modern UI.

Leaf AI – Plant Disease Detection

University of Massachusetts Dartmouth | Oct 2025

- Developed an AI – powered image-based plant disease detection web app using multimodal AI.
- Designed end-to-end analysis and treatment recommendation workflow with a responsive UI.

Stock Pilot – Intelligent Inventory Management System

University of Massachusetts Dartmouth | Oct 2025

- Engineered a Full Stack inventory and warehouse management system for real time tracking.
- Built scalable SQL data models, CRUD operations, and low stock alerting.

Car Rental and Maintenance Hub | *HTML, CSS, SSMS*

University of Massachusetts Dartmouth | May 2025

- Developed a full stack car rental and maintenance management system using Flask and SQL Server to handle rentals, payments, and service tracking.
- Designed relational database schemas and dynamic web interfaces, improving operational efficiency and overall user experience.

SKILLS

Languages/Libraries Framework

Python (pandas, NLTK, Scikit-learn, PyTorch, TensorFlow), Java, C, SQL, JavaScript
SageMaker, AWS, GCP, Spark, Hadoop MapReduce, Hive, Impala, Tableau, Git
